Multi/Interdisciplinary Sources

Summon
Search across the wide spectrum of library owned and leased content – books, articles, images, etc.

WorldCat
A database of materials held by libraries around the world.
- nearly 180 million records
- 470+ languages from 112 countries and territories
- borrow items via Interlibrary Loan

ProQuest Dissertations and Theses
References, summaries of doctoral dissertations and masters theses from more than 700 academic institutions
- full text provided for selected titles only -- try Interlibrary Loan!

Web of Science
A multidisciplinary database with special features:
- references to conference proceedings
- cited reference searching
- related records searching

Academic Search Complete
Scholarly and popular articles in all subject areas.

Google Scholar - http://scholar.google.com
Books, articles from scholarly publishers, and materials in college and university repositories. Also includes information about the number of times a work has been cited (better for books than articles).
